PROFESSIONAL PROFILE

Economist and Data Analyst with a strong academic foundation in Economics and Statistics and practical experience in official data management, revenue analytics, statistical modeling, and performance monitoring. Adept at transforming complex datasets into actionable insights that drive evidence-based decision making.

CORE SKILLS

- Statistical Analysis, Modeling & Inference
- Advanced SQL, Python (Intermediate), Excel
- Data Cleaning, Validation & Processing
- Revenue Forecasting, KPI/KRI Monitoring
- Dashboard Development & Data Visualization
- Exploratory Data Analysis (EDA) & Trend Analysis
- Database Management (Oracle, PostgreSQL, MySQL)
- Survey Design & Field Data Collection
- Agile Collaboration & Stakeholder Engagement

PROFESSIONAL EXPERIENCE

Data Analyst Intern

Kenya Revenue Authority (KRA), Nairobi

May 2025 – Present

- Extracted and analyzed large-scale domestic tax revenue datasets using SQL and Python to track trends and divisional performance.
- Produced daily, weekly, monthly, and quarterly statistical reports for leadership decision-making.
- Monitored KPIs and KRIs related to tax compliance and revenue accuracy.
- Conducted revenue forecasting, target setting, and performance gap analysis using statistical techniques.
- Developed taxpayer risk profiles and built interactive BI dashboards.

Economist / Statistician Trainee

National Youth Service (NYS) Headquarters, Nairobi

Oct 2022 – Dec 2022

- Performed statistical planning, budgeting, and cost analysis for organizational programs.
- Managed institutional databank including data cleaning, processing, and reporting.
- Developed Performance Contracts, AWP's, and supported MTEF preparation.
- Compiled monitoring & evaluation reports using statistical indicators.

KEY PROJECTS

California Housing Price Prediction (MLOps Pipeline)

GitHub: [California-Housing-dataset-for-MLOPS](#)

Python

- Built end-to-end machine learning pipeline for house price prediction with statistical validation.
- Implemented data preprocessing, feature engineering, model tuning, and evaluation.

Advanced SQL Database Analysis

GitHub: [SQL-Practice](#)

SQL

- Executed complex SQL queries, window functions, and statistical aggregations on large relational databases.
- Derived key business insights through exploratory data analysis.

EDUCATION

Bachelor of Economics and Statistics

May 2019 – Dec 2023

Mount Kenya University, Thika

Second Class Honours – Lower Division

CERTIFICATIONS

- CPA Foundation Level – KASNEB (2025)
- Data and AI – Cyber Shujaa (2025)
